

## The Targumim Texts

The Aramaic texts for the Targumim in this collection have been downloaded from the [Sefaria.org website](http://Sefaria.org). In most cases, the text has been formatted in line with other files in this collection, and (English) chapter titles and (Hebrew) verse numbers and dividers (*Sof Pasuq*) have been added (following the traditional verse divisions of the *Masoretic Text*). The text sources for the component books, and the conditions under which they are published, are described in the following sections.
